## WHY USE A PARENT CO-ORDINATOR?

- It helps parents avoid fights and protracted litigation.
- Reduces stress on parents and kids and reduces conflict.
- Kids will learn better communication and problem-solving skills.
- Parenting Co-ordinators will help and guide parents so they can make the right decisions for their children.
- Improved shared parenting means more time to focus on the children's needs.

Parenting Co-ordinators are specially trained professionals whose work focuses on helping co-parents manage their co-parenting relationship so they can avoid ongoing conflict.
